Summary

Aspiring Software Developer and B.Tech Computer Science and Engineering student with knowledge of Python, JavaScript, web development, Flask, MySQL, and MongoDB. Hands-on experience developing AI-powered and web-based applications through academic and internship projects. Strong foundation in software development, problem-solving, and database management, with an interest in building efficient, scalable, and user-focused applications.

Technical skills

- **Languages:** Python, JavaScrip, c
- **Web Technologies:** HTML, CSS, Flask
- **Databases:** MongoDB, MySQL
- **Tools:** GitHub, VS Code

Projects

- **AI-Driven Autocorrect Tool :** Python, Flask, TestBlob, HTML, CSS, JavaScript

  *Developed a web application to identify and correct spelling errors in user-entered text.
  *Integrated TextBlob with Flask to process text and display corrected results.
  *Designed a user-friendly interface for text input and correction.

- **Low-Light Image Enhancement Using LIME :** Python, OpenCV, NumPy

  *Developed an image enhancement system based on the LIME algorithm to improve visibility in low-light images.
  *Implemented image-processing techniques to improve brightness and visual quality while preserving image details.

- **Smart Traffic Public Issue Reporting System (Role:** UI/UX Designer**) :** React, TypeScript, HTML, CSS

  *Contributed to the UI/UX design of a web-based platform for reporting traffic problems and public infrastructure issues.
  *Focused on creating a user-friendly interface to help citizens report civic issues and track their status

.Internship Experience

AI Intern| Pinnacle Labs

* Developed AI-based applications using Python and applied machine learning concepts.
* Collaborated on project development, testing, and debugging.

Python DSA Intern | Seeding Minds, C. V. Raman Global University

* Solved coding problems using Python and implemented data structures and algorithms.
* Improved problem-solving and coding proficiency through hands-on tasks.

MERN Stack Intern | Seeding Minds, C. V. Raman Global University

* Developed responsive web applications using the MERN stack.
* Implemented frontend-backend integration and database connectivity.

Educations

C.V. Raman Global University **2023 - 2027**
B.tech in Computer science and engineering Bhubneswar , Odisha

Certifications & others

· Google AI Essentials
· JPMorgan Chase Software Engineering Job Simulation
· Python DSA Internship — Seeding Minds
· MERN Stack Internship — Seeding Minds
· Artificial Intelligence Internship — Pinnacle Labs
· Deloitte Data Analytics Job Simulation
· NISM Certification
· Foundations of Cybersecurity
